

Notes for March 18th CVP PI meeting, 14:00-16.00 at CMM, VIP room, level 5

Participating PIs: Jesper Z. Haeggström, Ulf Eriksson, John Pernow, Ulf de Faire, Ulf Hedin

Other participants: Lars Maegdefessel

- § 1. Notes from previous PI meeting on February 20 were accepted as distributed.
- § 2. New and updated features of our homepage www.cardiovascular.se were demonstrated. All PIs are encouraged to visit the homepage and give some feedback on improvements and additional functions they would like to see. Our webmaster is anders.wetterholm@ki.se.
- § 3. The program for the 2014 CVP retreat was discussed. JP and UE reported that the following speakers had accepted our invitation: Dan Lawrence (UMich), Jakko Tuomilehto (UHelsinki), Sven Enerbäck (UGbg), Linda Melbin (KI MedSolna), Staffan Holmin (KI CNS), and Mikael Rydén (KIMedHS). Tomas Nyström (KISös) has declined because of other commitments.

Several alternatives were discussed and it was agreed that Håkan Wahlén (DS) should be invited (by JP). As back-up invitees we will approach Per-Henrik or Leif Groop, followed by Nils Wahlgren from the UBS project.

As soon as we have a preliminary program, we will send out an invitation to the CVP community asking for abstract for oral or poster presentations. Potential speakers will be selected from submitted abstracts and if all slots cannot be filled with good speakers, we will pick researchers from the constellations of the CVP PIs.

- § 4. UE will visit UMich beginning of next week and discuss potential collaborations with CVP. When he gets back he will bring with him names of additional speakers for the retreat.

From Jesper's desk, March 21, 2014.
